

ATTACHMENT I

North Carolina Psychological Association Policy

ACCESSIBILITY OF CONTINUING EDUCATION OFFERINGS

1. Facilities where NCPA or a co-sponsor holds continuing education activities must provide adequate space for the kind of educational methodology used and be private enough to safeguard confidentiality of case material or work samples.
2. It is recommended that a classroom style arrangement be used for all workshops.
3. All facilities must be accessible to those who are physically challenged. If special requests are received, NCPA or a co-sponsor will attempt to make the necessary arrangements (e.g. provide assistance to visually impaired registrants or provide sign language interpreters).
